

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director
Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

30 Day Public Notice Report

Application # : FW-24819

Stream : Big Blue River

Applicant : Board of Hancock County Commissioners
Joseph D Copeland
921 West Osage Street
Greenfield, IN 46140-2278

Description : The proposed project is to reconstruct the County Road 575 East corridor from the intersection of Shelby County Road 500 East and Hancock County Road 600 South at the Shelby-Hancock County Line to County Road 600 East and to rehabilitate Hancock County Bridge No. 124 over Holt Ditch and Hancock County Bridge No. 129 over Arm of the Charles Hill Drain. The work in the floodway of the Big Blue River include resurfacing approximately 2020' of County Road 575 East, installing an overflow structure, and a proposed wetland mitigation site approximately 2.79 acres in size. Details of the project are contained in information and plans received at the Division of Water on April 22, 2008.

Location : Road Reconstruction: approximately 1320' to 3340' north along County Road 575 East; Overflow structure: at the County Road 575 East stream crossing the Unnamed Tributary to Big Blue River; Mitigation site: approximately 1920' north and 375' east of the County Road 600 South and County Road 575 East intersection and extending 925' northeast
DOWNSTREAM: near Morristown, Blue River Township, Hancock County
E½, Section 36, T 15N, R 7E, Morristown Quadrangle

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : FW-24828

Stream : St. Joseph River

Applicant : City of South Bend Department of Public Works
Rob Nichols
1316 County-City Building
South Bend, IN 46601

Description : The purpose of this project is to maintain and stabilize Combined Sewer Overflow (CSO) Outlet #4. The two existing degraded outfall structures, an 18" CMP and an 8" CMP will be removed and replaced with a 27" RCP and a 12" RCP. Pre-cast concrete end sections will be installed at the outfall of the new pipes. The slope of the riverbank will be stabilized with permanent seeding, turf reinforcement mat, and tree planting. The toe of the slope will be stabilized with revetment riprap over a geotextile fabric. Approximately 550 square feet of rip rap will fall below the Ordinary High Water Mark of the St. Joseph River. Fifty five (55) linear feet of shoreline will be affected by the project. Details of the project are contained in information received electronically at the Division of Water on May 2, 2008 and in plans and information received at the Division of Water on

Location : The site is located northeast of the intersection of Riverside Drive and Angela Bouelvard, along the left (west) bank of the St. Joseph River
near South Bend, Union Township, St. Joseph County
Section 2, T 37N, R 2E, South Bend West Quadrangle
Quad Code: 4108663

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

Application # : PL-21002

Lake : Shriner Lake

Applicant : Whitley County Highway Department
Keith Hood, PE County Engineer
220 West Van Buren Street, Suite 203
Columbia City, IN 46725-2056

Description : The existing steel and concrete bridge that carries Fish Hatchery Road over the outlet channel for Shriner Lake will be replaced in kind with a 26' by 24' concrete slab bridge supported by spread footings. The vertical alignment will remain the same. The concrete outlet control structure for Shriner Lake is connected to the existing bridge and will remain in place. A new outlet structure will be built of the same material downstream of the existing structure. The weir geometry and elevation will match the existing weir. Limestone riprap will be placed on the downstream side of the new control structure for a distance of 10' in order to dissipate energy and prevent scour. The riprap will conform to the existing stream elevations. A temporary runaround will be built east of the bridge consisting of one or two large diameter pipes placed in the channel. Fill will be placed around the pipe(s) to build up the temporary roadway. The temporary structure is necessary because the bridge is the only vehicular access for a residential area. The runaround will be removed after construction is completed and the area will be restored to existing conditions. Details of the project are contained in information and plans received at the Division of Water on April 14, 2008.

Location : The project location is the bridge over Shriner Lake outlet on Fish Hatchery Road between Shriner Lake and Round Lake.
near Columbia City, Thorncreek Township, Whitley County

30 Day Public Notice Report

Application # : PL-21006

Lake : Irish Lake

Applicant : Jon N Brice
1970 East 700 North
Marion, IN 46952-9051

Description : A new concrete seawall will be constructed across 50' of the applicant's 97' frontage. The lakeward face of the wall will be located along the lake's legal shoreline. In addition, a concrete seawall will be refaced with a layer of concrete across 47' of the applicant's 97' frontage. The reface layer will be keyed to the wall's lakeward face. Details of the project are contained in information and plans received at the Division of Water on April 18, 2008 and May 7, 2008.

Location : 51 and 57 EMS B40 A Lane; Lots 2 and 3 of Irish Beach Addition
near North Webster, Tippecanoe Township, Kosciusko County
SE¼, SW¼, NE¼, Section 20, T 33N, R 7E, Leesburg Quadrangle
Quad Code: 4108537

Application # : PL-21023

Lake : Lake Wawasee

Applicant : Southeast Bay Development Co LLC
John Bontrager
11090 Geist Road
Fishers, IN 46038-9765

Description : This requested permit is for a continuation of a seawall project authorized under PL-20791 in August 2007. Under PL-20791, permission was granted to replace an existing 24' wide boat ramp with a new straight concrete seawall. The length of the area to be replaced with new concrete seawall was actually 51' across. The applicant is therefore requesting approval of the additional 17' of boat ramp to be replaced with straight concrete seawall. In addition, the applicant would then like to add another four feet of new concrete seawall on the corner of the property followed by 28' of glacial stone riprap seawall, which will connect into an existing stone riprap seawall. The purpose of the entire project is to deter shoreline erosion. The areas of concrete seawall will be approximately 24" in thickness uniformly. Details of the project are contained in information received electronically at the Division of Water on May 7, 2008 and in plans and information received at the Division of Water on

Location : 10011 North Turkey Creek Road
near Syracuse, Turkey Creek Township, Kosciusko County

30 Day Public Notice Report

Application # : PL-21025

Lake : Dewart Lake

Applicant : Jack Farren
166 EMS D23
Syracuse, IN 46567-7962

Description : An existing concrete seawall will be refaced across a portion of the 50' frontage of the applicant on Dewart Lake to prevent deterioration. The refacing will consist of poured in place concrete which will be tied to the existing wall with 1/2". The refacing will have a maximum thickness of 13" and will be sloped on the lakeward side. A 24" wide concrete walkway will be constructed on top and landward of the lakeward face of the refaced wall. Details of the project are contained in information received electronically at the Division of Water on May 7, 2008 and in plans and information received at the Division of Water on

Location : 166 EMS D23 LN; West side of Dewart lake near public boat launch.
Legal Description:027-098-267 Lot 5 R Metzlers Sd Dewart Lake
near Syracuse, Van Buren Township, Kosciusko County

Statute/Rule : Lakes Preservation Act, IC 14-26-2, with the associated Public Freshwater Lake Rule, 312 IAC 11

Application # : PL-21026

Lake : Dewart Lake

Applicant : Ron Tobias
160 EMS D23
Syracuse, IN 46567-7952

Description : An existing concrete seawall will be refaced across a portion of the 50' frontage of the applicant on Dewart Lake to prevent deterioration. At the south end of existing seawall will bring the reface 10' back in the yard to help prevent further erosion. The refacing will consist of poured in place concrete which will be tied to the existing wall with 1/2". The refacing will have a maximum thickness of 13" and will be sloped on the lakeward side. A 24" wide concrete walkway will be constructed on top and landward of the lakeward face of the refaced wall. Details of the project are contained in information received electronically at the Division of Water on May 7, 2008 and in plans and information received at the Division of Water on

Location : 160 EMS D23 LN; West side of Dewart Lake near the public boat launch.

Application # : PL-21028

Lake : Dewart Lake

Applicant : Murvelle E Groover
807 South Joan Drive
Portland, IN 47371-8301

Description : A new seawall will be constructed along the frontage of the applicant on Dewart Lake to deter shoreline erosion. The wall will be composed of 6" to 12" diameter rock and will be approximately 20' long. Its lakeward face will be at the legal/average normal shoreline of the lake. Details of the project are contained in information received electronically at the Division of Water on May 8, 2008 and in plans and information received at the Division of Water on

Location : The lot is located on lane 24 of dewart lake along the lagoon adjacent to the public ramp; it is approx. 35' to the right of the of the DNR property.
near Syracuse, Wayne Township, Kosciusko County

Statute/Rule : Lakes Preservation Act, IC 14-26-2, with the associated Public Freshwater Lake Rule, 312 IAC 11

Application # : PL-21029

Lake : Big Chapman Lake

Applicant : Lanita S Yoder
1773 Chapman Lake Drive
Warsaw, IN 46582-7837

Description : An existing underwater beach will be improved in front of the property of the applicant on Big Chapman Lake to prevent further beach erosion. A 6" layer of 7/64 inch clean, washed pea gravel will be placed directly on top of the remaining sand. The placement will begin approximately 6' east of the western property line and will extend easterly across 50' of the 58' frontage. It will project lakeward for the lessor of 15' or a depth of 5' below the average normal level of the lake. Details of the project are contained in information and plans received at the Division of Water on May 8, 2008.

Location : 1773 Chapman Lake Drive
at Warsaw, Plain Township, Kosciusko County

Statute/Rule : Lakes Preservation Act, IC 14-26-2, with the associated Public Freshwater Lake Rule, 312 IAC 11
